

NHS Forth Valley – GP Prescribing Service

The summary screen provides a list of the data required for this Enhanced Service. This includes [data required for GPPS payment](#), and [data considered best practice](#).

The red indicator shows that the patient is not yet registered on the enhanced service, so click on [Enhanced Service](#) on the left hand side tree to open the screen.

Click on the box stating '[Drug Misuse – enhanced service commenced](#)' to include the patient in your enhanced service claims and activate the coloured indicators.

Please note: The summary grid only shows historical data, and the indicators shown here will reflect the status when entering the consultation.

GPPS Payment Data

The following is required for GPPS payment:

- The patient should be added to the enhanced service
- An [SMR 25](#) completed during the last 12 months
- A [substance misuse appointment](#) during the last 3 months
- A [management plan](#) to be reviewed every 3 months
- And a [prescription of substitute medication](#) during the last 3 months

GPPS Best Practice Data

It is recommended that the following data should be recorded **annually**:

- A Christo inventory and score
- Patient contract agreed or reviewed
- Injecting status
- The duration of supervised substitute medication intake
- If the patient has regular contact with children
- Employment status
- BBV prevention, contraception and safe sex discussed
